Pro-Trump lawyer Lin Wood ramped up the crazy on Wednesday night by suggesting Supreme Court Chief Justice John Roberts was somehow involved in Justice Antonin Scalia's death and part of a child-sex cult.

Wood, alongside on-again-off-again Trump campaign lawyer Sidney Powell, has been at the forefront of President Donald Trump's hopeless attempt to overturn President-elect Joe Biden's decisive victory in the Nov. 3 election. Besides filing a slew of conspiratorial lawsuits alleging election fraud that have been laughed out of court, Wood has urged Georgian Republicans not to vote in next week's pivotal Senate runoffs because of his belief that the election will be "rigged" and has filed an emergency petition with the Supreme Court to halt the Jan. 5 election.

The QAnon-peddling attorney took things to a whole new level on Wednesday night, however, when he decided to take to Twitter and toss out a

"You are recorded discussing Justice Scalia's successor before date of his sudden death. How did you know Scalia was going to die?" Wood asked Roberts in one tweet, casually adding: "Are you a member of any club or cabal requiring minor children as initiation fee?"

After painting Roberts as a murderous pedophile, the far-right attorney went further down the QAnon rabbit hole by bringing up deceased sex trafficker Jeffrey Epstein, suggesting the chief justice was mixed up in trafficking children and apparently hinting that he may have had Epstein killed.

"My information from reliable source is that Roberts arranged an illegal adoption of two young children from Wales through Jeffrey Epstein," Wood

Not done, he finished by arguing that the lack of a defamation suit from Roberts meant his unfounded accusations were on the mark.

A bit more on CJ John Roberts.

I have publicly accused him & Justice Breyer of being profane anti-Trumpers.

I have linked Roberts to illegal adoption, Jeffrey Epstein, pedophilia & prior knowledge of Scalia's death.

Did Roberts skip class on defamation?

Maybe not . . .

Wood did not immediately respond to a request for comment on his allegations.

The following morning, however, things only got weirder as Wood went further down the rabbit hole, this time claiming Epstein "is alive" and could reveal the

fair-minded people would first ask

Or ask Jeffrey Epstein. He is alive.

Despite many in Trump's orbit
declaring war on Wood after he pushed
for a boycott of the Georgia Senate
races, the president himself has
personally kept in touch with the
firebrand. Trump has not only
encouraged Wood and Powell to
continue with their "Kraken" lawsuits,
but he also hasn't told them to tone
down their rhetoric, much to the
dismay of many of Trump's advisers.

In recent weeks, with Trump's election loss becoming harder to ignore for the MAGA faithful, Wood has also taken to encouraging apocalypse-minded conservatives to stock up on supplies in preparation for an impending civil war.

"Remember we only have 1 President at a time," he tweeted while calling on his followers to prep. "Our leader is @realDonaldTrump, not Biden."
